BATTLESHIP WAS BLOWN UP

**Russian Vessel Strikes
Mine With Terrible
Results.**

MANY LIVES LOST.

**Almost the Entire Crew of the
War Vessel Petropavlosk
Perished, Including Vice
Admiral Makeroff.**

Special to Rushville Republican.

Chicago, April 13.—St. Petersburg semi-official telegram from Port Arthur says Russian battleship Petropavlosk while going out to meet Japanese fleet, struck a mine in channel and was blown up, and it is estimated that between six and seven hundred men were lost, including vice admiral Makeroff—Only four officers saved.

St. Petersburg, April 13.—According to telegraphic advices a bombardment of Port Arthur and a fight on the Yalu are expected momentarily.

Che Foo, April 13.—The captain of the steamer Lockshan, which arrived today from New Chwang, reports that he heard heavy firing between 5 and 7 o'clock this morning in the direction of Port Arthur. The firing was continuous, but no ships were visible. From the direction of the sound he judged that there was fighting at the entrance to Port Arthur. The Lockshan was the last foreign merchant vessel to leave New Chwang, sailing at the same time as the British gunboat Esplegle, at 1 o'clock yesterday afternoon.

Port Arthur is about sixty-five miles to the north from Teng Chow. The Miaotao Islands are on a line between the two points and about twenty-five miles north of Teng Chow. Dispatches received from the far East during the past five days have reported both the Japanese fleet and the Russian Port Arthur fleet to be cruising at sea in the vicinity of Port Arthur. Six Japanese warships were reported off Wei Hai Wei on April 9, and on the 10th inst. Japanese warships were seen on the horizon from Port Arthur.

On April 10th the Russian warships at Port Arthur were reported to be patrolling actively, and on the 11th inst. eight Russian warships were reported to have been seen ten miles outside of Port Arthur.

BRISK ENGAGEMENT

Jap Detachment Ambushed by Russians on the Yalu.

St. Petersburg, April 13.—General Kuropatkin in a dispatch to the emperor bearing Tuesday's date, says that General Krasnalinski on the night of April 8 ordered a detachment of sharpshooters to cross to the left bank of the Yalu, opposite Wiju. The sharpshooters landed on the island Samalind and surprised a patrol of fifty Japanese scouts just as the latter were approaching the east side of the island in three boats. The Russians allowed the Japanese to land and then fired on them. Nearly all the Japanese were shot, bayoneted or drowned and their boats sunk. The Russians sustained no losses. Non-Commissioned Officers Louchkine and Souhaschonov distinguished themselves in the fight. On the following day the Japanese lowered their flag at Wiju and their outposts, which lately have been seen, fell back. On the night of April 9 four Russians crossed the Yalu to Yongampho and made toward a Russian village, where they found a squadron of Japanese cavalry. They remained there twelve hours, when they were betrayed by Koreans and were obliged to swim the river, their

boat having struck on a sand bank. One soldier lost his life. The Japanese pursued the Russians in a boat, but were in turn attacked by a Russian boat which had come to the rescue of the swimmers. The Japanese were all killed and their boat sunk.

Russians Gratified.

St. Petersburg, April 13.—General Kuropatkin's report to the emperor of the annihilation of Japanese detachments on the Yalu river is a matter of general satisfaction in official circles. Again, in the view of the authorities, the Russian soldier has proved his superiority in strategy and in the manner of attack which left no chance for a single enemy to escape.

New Chwang Panic-Stricken.

New Chwang, April 13.—Last night a pilot's flare was mistaken for the lights of a Japanese fleet, and the Russians fired and sank the junk with thirty-five hands, besides killing three persons and wounding seven in another junk. The native population is panic-stricken and leaving the town.

Ready to Oppose Japs.

Seoul, April 13.—Japanese advices from northern Korea state that the Russians have strongly fortified Chou Tien Cheng, a walled town on the Manchurian side of the Yalu river about ten miles north of Antung. It is estimated that there are 20,000 Russians of all arms at Antung ready to oppose the Japanese crossing.

HIS PROMISE

**To Marry His Divorced Wife
Not Carried Out.**

**Six Thousand Dollars Damages
Asked By Disappointed
Woman.**

Sarah E. Richey, this afternoon, by Watson, Titsworth & Green brought suit against Weston C. Richey, her former husband, for \$6000, for breach of promise.

The couple were divorced about a year ago and lived apart for a while, when they became reconciled and it is alleged that the defendant wrote the plaintiff "endearing and affectionate letters" and which contained many "protestations of love."

The plaintiff alleges that on the fifteenth day of August defendant promised to marry her, and that January 7th was the date fixed for the marriage, but that defendant had entirely disregarded said promise.

The parties to the suit are well known in this county and live at Milroy, the defendant being a prominent stock buyer and in good circumstances.

This suit promises to be rather sensational, an Indianapolis married lady, by the name of Grace Wilson, being mentioned in the suit.

BUSINESS CHANGE.

**Tongret and Winship Dissolve
Partnership in Music Store.**

A deal has just been consummated whereby the partnership of Tongret & Winship, dealers in musical instruments, is dissolved, the senior partner, Mr. S. T. Tongret, obtaining control of the stores at Connorsville, Shelbyville and Liberty and the agencies at Indianapolis and Greenfield, and Mr. Winship, the store in this city. The transaction was by mutual consent. Mr. Winship desiring to confine his business to his home town and county. Mr. Wagoner will assist Mr. Winship in the store here. C. J. C. Clayton and wife having left the city.

A wide-open Bible never made a wide-open town.

For Harmony and Good Will.

(Indianapolis Journal.)

New Albany, Ind., April 12.—Envelopes containing ten-dollar bills, and with nothing to indicate why the money was sent, have been received in this city by Democrats, who are supposed to be in sympathy with the movement in favor of nominating Hearst for the presidency. The envelopes were postmarked Indianapolis, and purported to come from the headquarters of the Hearst League. The greenbacks were wrapped in blank paper, on which there was no writing to indicate who had sent the money and for what purpose it was being distributed so liberally. The fact that money was being sent to this city was ascertained through letters received by Democrats who are not favorable to the Hearst movement, and who have been exhibiting the letters and contents. Several of the letters have been taken to District Chairman, Thomas Hanlon, who favors Judge Parker, of New York, for the presidential nomination. The receipt of the letters has caused considerable comment among the Democrats, many of whom have expressed a desire to be placed on the mailing list of the persons who are sending out the money.

Petition Circulated.

The farmers, who live along the river on the opposite side of the road traversed by Rural route three, near Hungerford's bridge, are circulating a petition to have the road changed over to their side of the river. The road has been washed out so badly by recent high water that it will have to be entirely rebuilt, which is the cause of the petition being filed. The parties living on the old road will file a remonstrance, inasmuch as the changing of the road would deprive them of their rural route mail service.

Save Your Vote.

The city election occurs the first Tuesday in May. Any person moving from one precinct to another at any time between now and that date will lose his vote. In fact, to be a voter you must be six months a resident of the State, sixty days a resident of the precinct. It behooves Republicans to see to it that no Republican vote is lost on this or any other account. The Republican ticket is good from top to bottom, and every candidate on it deserves the unanimous support of the party.

The People of Today Are All Imitators

By Professor GEORGE E. VINCENT, University of Chicago

WE are all terribly alike, and every man and woman is but AN IMITATION of some other man or woman.

In literature, art, religion, we are ALL under the influence of SOME domineering power. Even in sports we are not free from imitation. Thousands of people who did not want to ride bicycles did so because they wanted to imitate the wealthy class at Newport. And of what use was their rejoicing? Now they must needs motor, and play golf, because it is fashionable to do so and the people they want to SEEM LIKE enjoy those things.

WE WILL NEVER GET RID OF THE FADS, AND WE MAY NEVER GET RID OF THE IMITATIONS, BUT THE ONLY CHANCE FOR THE LATTER IS TO CULTIVATE INDIVIDUALITY.

The way to do that is to stimulate yourselves for greater efforts by never letting a day pass without spending fifteen minutes at least with some one you feel is SUPERIOR TO YOU or by reading for that length of time in a good book.

A MONTANA BLIZZARD.

As Seen and Described by Former Resident of Rush County.

CULBERTSON, Mont., March 26, 1904.

To the Editor of the Republican:

I thought I would write you a brief description of one of the worst blizzards that ever visited the eastern part of Montana. Stockmen here say it has had but few equals since the memorable winter of '86 which is a matter of history. The morning of March 21st dawned clear with a mild east wind, strangely suggestive of the coming spring; but as the sun rose higher it gradually became obscured by a heavy vapor that seemed to be just drifting through the air, and which finally formed into a heavy cloud that seemed to be no higher than the tops of your ordinary forest trees. At about four o'clock in the evening a light snow began to fall and there were occasional gusts of wind which sent it whirling over the plains.

Of course I thought I had witnessed a real blizzard, but I afterwards learned that there is no law to define the limit of the so-called blizzard. As night advanced the wind changed around to the north-east and attained a velocity that would be something difficult to describe. The long stretch of country from here far up into the British possessions, offers but little resistance to the wind until it reaches a range of high hills about seven miles southwest of here known as the "Divide," between the Missouri and Yellowstone rivers, and here it deposits great quantities of snow; sometimes the great depth of from twenty to thirty-five feet of snow will be reached on the northern slope of this "Divide," and from a snow fall of not more than eight inches, especially if there is an old crusted snow already on the ground as there was at this time.

By the next morning the storm had reached its worst, and unless a person is endowed with a very fertile imagination, he could not even form

an approximate idea of the immense proportion to which these blizzards attain. We seemed to be completely shut in from the remainder of the world, not being able to see more than fifty yards distant. The roar of the wind would remind one of a train of empty box-cars coasting down-grade, and I would like to say right here that your modern dwellings back there, thought convenient in every respect, would scarcely be able to resist the high pressure which these winds would bring to bear upon them, but the low roofed dwellings of the ranchmen here, which are very primitive, offer but little resistance to the wind, and are abundantly able to afford much comfort during the worst blizzards.

The second morning of the storm found several large drifts piled about our yard, but as a rule they did not last long, for the wind would cut them out and carry them on; range cattle that feed upon these plains by the thousands drifted past our ranch occasionally on their way to the breaks of the "Bad Lands." They seemed to be completely plastered over with snow, and holding their heads down low they were slowly making their way through the deep drifts.

At 10 o'clock of the third day the wind calmed down, the sun came out, and the storm was over. Now in all fairness I should state that a blizzard has no terrors for the average ranchman. Nature has provided an abundant supply of coal all through this country, and as it is free for the digging, there is no reason for any one to suffer with cold for lack of fuel.

Young cattle and sheep are kept up, shedded, and well fed through the worst weather, and unless there is an unusually severe winter the great herds of range cattle come out in the spring in very good shape and with small loss, so you see the worst features of a blizzard can be greatly ameliorated by a studied preparation.

WHEAT CROP BAD

**Crop in Rush County a Dis-
mal Failure This Year.**

**Unless the Weather Improves at
Once Thousands of Dollars
Will Be Lost to Farmers.**

Indications are that the wheat crop in Rush county will be the poorest that has been seen for a number of years.

In many places there is hardly any thing left to indicate that wheat had been sown, and the late wheat is frozen badly and the remainder washed out by the recent heavy down pour of rain.

That part of the crop which was put in early is a little better but a conservative estimate by some Rushville men, who have been all over the county is that the crop in this county will hardly average twenty per cent.

Col. E. H. Wolfe, who came from the northern part of the State, last week, says the prospects in other counties that he saw is no better, but the prediction of the State Statistician this week that the crop would average 60 per cent. would indicate that the conditions here are about the most unfavorable in the State.

Much of the land that was planted in wheat last fall will be plowed up and planted in other crops on account of the failure of wheat this year. Reports from the township assessors that are coming to State Statistician Johnson show that from one-fourth to one-half the wheat acreage will be abandoned, that the farmer may cover his losses in other grains. So poor is wheat in some localities that the yield will not be more than 10 per cent. of the normal.

Reports from 297 townships out of 1015 townships, and eighty-seven out of ninety-two counties show that there is little hope for wheat this year. Out of sixty-five counties, 153 townships show a condition indicating a harvest of 60 per cent. of the normal. Seventy-seven townships out of fifty counties show a harvest of 70 per cent., and forty-seven townships out of forty-seven counties, a harvest of 80 per cent. Only eleven townships and eleven counties show the condition to be good. Reports from Jasper, Benton and White counties show that practically no wheat was planted in these counties this year. Experience has shown the farmers there that wheat is not a profitable crop, and they have sown their lands in something else.

Mr. Johnson is hopeful that conditions during the remainder of spring will be such that the wheat will develop as much as possible. Last year at this time the wheat crop could not have looked more promising, but the heavy rains spoiled it. Two years ago, the outlook was as poor as it is now, but with the most favorable weather a fair harvest was gathered.

Mr. Johnson attributes the failure of the wheat crop to the fact that the wheat went into winter in a bad condition. In early fall the weather was such that the wheat developed well. When the weather grew cold, unaccompanied by snow, the wheat suffered. February, with its alternating freezing and thawing, did much to damage the wheat. After the snow that had covered wheat all winter melted, there was a sudden freezing, and the blades of wheat were caught in the ice. Had the water had time to run off the wheat fields the crop would not have been damaged so much.

Unless the weather gets favorable for the planting of crops immediately, the loss in Rush county will be thousands of dollars, inasmuch as the time for planting of potatoes, corn and other crops is upon us and the farmers are unable to proceed with their work.

Following the reports of the Indiana statistician, showing the bad conditions, comes the report from Washington, which throws further light on the situation. A dispatch from Washington says:

The monthly report of the chief of the Bureau of Statistics of the Department of Agriculture will show the average condition of winter wheat on April 1 to have been 76.5, against 97.3 on April 1, 1903, 78.7 at the corresponding date in 1902, and 84.1 the

mean of the April averages of the last ten years. The following table shows for the principal States the averages of conditions on April 1, the corresponding averages one year ago, and the mean of the corresponding averages of the last ten years:

	April 1, 1904	April 1, 1903	10-Year Av.
Kansas.....	78	97	83
Missouri.....	81	95	84
California.....	92	98	87
Indiana.....	66	97	79
Nebraska.....	81	96	89
Ohio.....	66	97	78
Illinois.....	83	98	81
Pennsylvania.....	74	100	81
Oklahoma.....	66	100	90
Texas.....	68	94	82
Tennessee.....	73	98	82
Michigan.....	78	95	80
United States.....	76.5	97.3	84.1

The average condition of winter rye on April 1 was 82.3 against 97.9 on April 1, 1903, 85.4 at the corresponding date of 1902, and 89.1 the mean of the April averages of the last ten years. A tabular statement showing the condition of farm animals on April 1, and the percentage of deaths from diseases and exposure during the last twelve months will be published soon.

RATES CHANGED

**New Directors of Telephone
Company Elect Officers.**

**Revise Rates to Conform With
Suggestion at the Last Meet-
ing of the Stockholders.**

The new directors of the Rushville Co-Operative Telephone company met last night and elected officers for the coming year, all the old officers being re-elected as follows: President, T. M. Green; vice president, Benj. L. McFarlan; treasurer, John H. Frazee; secretary and manager, W. T. Jackson. A resolution, giving the stockholders until the first of May to take the remainder of the shares of stock was adopted.

To conform with the resolution or suggestion of the last meeting of the stockholders a few days ago, the rates were raised to about the same rates as other cities of this size.

The rates were fixed as follows: Stockholder, residence, \$1.00; business, \$1.50. Non-stockholders, residence, \$1.25; business, \$2.25. The rates heretofore have been as follows: Stockholders, residence, 80c; business, 80c. Non-stockholders, residence, \$1.25; business, \$2.00.

B. L. McFarlan, O. L. Carr and W. D. Root were appointed a committee on salaries of the officials.

There is some dissatisfaction among telephone subscribers on account of the advance of rates, some of the stockholder subscribers are not satisfied with the increase of rates.

The Young Writer.

No young writer in whom the literary aspiration is a passion need or really will be cowed by the array of mighty and expert antagonists in the arena whose names sound and resound so gloriously from the herald's trumpet in full volume re-enforced by past triumphs. Though a true and becoming modesty may well temper his ambition, it should in no degree suppress his ardent longing. These veterans, young aspirant, are indeed masters, but as such your exemplars. They also had their beginnings, hidden indeed, as used to be the sources of the Nile, "not permitted to be seen small," because they mastered their art before they exhibited as artists.—Harper's Magazine.

ANNOUNCEMENTS.

FOR TRUSTEE OF UNION TOWNSHIP.
We are authorized to announce the name of
John F. Mapes as a candidate for trustee of
Union township, subject to the decision of
the Republican township convention.

New York's delegates to the National
convention are instructed for Roose-
velt.

Richmond P. Hobson was defeated
for the Congressional nomination in
his district in Alabama, by John H.
Bankhead.

Shelbyville Republican: You have
heard about people blowing their own
horns? Well, just pick up a copy of
any one of William Randolph Hearst's
half dozen newspapers and you will
be holding a living illustration. Those
papers look about as ridiculous as a
man patting himself on the back and
shouting aloud his praises in his own
ear.

Papers of all shades of political
views continue to comment on Judge
Parker's sphinx-like silence. No one
knows precisely what his position is
on any important question now before
the public. The New York Tribune
puts the case thus:

No one knows, or can say with author-
ity, whether he stands with the radicals
or the reactionaries—whether he is
a Cleveland or a Bryan Demo-
crat. He is on record neither for nor
against the Chicago and Kansas City
platform. No one can accuse him of
having favored or opposed free silver
coinage—of having approved or disap-
proved the maintenance of American
sovereignty in the Philippines. He
cannot be convicted of sympathy with
either the Watterson-Wilson or the
Randall-Gorman program of "tariff
reform." No one can tell the conven-
tion asked to nominate him whether
he believes that Federal agencies are
competent or impotent to check the
aggressions of State chartered trusts.
No one can say that he approves or
condemns the Panama canal treaty or
would sanction the construction under
its terms of an interoceanic canal. If
the plans of his campaign managers do
not miscarry, he is to be made the
Democratic candidate for President on
the "blind pool" theory, every conflict-
ing interest accepting him on the
hazard that it may have guessed his
real opinions right.

HOW THEY STAND

Strength of Each District in Republi-
can State Convention.

Indianapolis, Apr. 13.—The strength
of each district in the Republican
state convention has been reduced to
the following figures: First, 102; Sec-
ond, 102; Third, 84; Fourth, 98; Fifth,
120; Sixth, 119; Seventh, 124; Eighth,
134; Ninth, 132; Tenth, 132; Eleventh,
121; Twelfth, 98; Thirteenth, 122.
The Seventh, Tenth, Eleventh and
Twelfth have candidates for governor;
the Fourth, Sixth and Eighth candi-
dates for lieutenant governor; the
Third, Fourth and Fifth candidates
for supreme judge; the Seventh, Tenth
and Eleventh candidates for statisti-
cian; the Third, Sixth, Ninth and Fifth
candidates for reporter of the supreme
and appellate courts; the Second for
state treasurer; the Ninth for state
auditor; the Thirteenth for attorney
general, and the Sixth for superinten-
dent of public instruction. The First
is the only district that will not pre-
sent a candidate for something.

According to an estimate made to-
day by Chairman O'Brien over 800 dele-
gates have already been selected to
the state convention May 12, and that
less than 100 are for W. Randolph
Hearst. Over at the Hearst headquar-
ters at the Claypool hotel a far differ-
ent estimate is presented. His repre-
sentatives declare that they are break-
ing even and that they expect to do
better right along. There will be
1,547 delegates in the Democratic con-
vention, which is more than the Repub-
licans will have. The Republican
convention will have 1,488 delegates.
The apportionment was the same in
both calls, but the Democrats selected
their delegates according to the vote
of 1900, while the Republicans are go-
ing according to the vote of 1902, an
off year when it was much below nor-
mal. The estimate of O'Brien that
over 800 delegates have been selected
is surprising, as it was the general
supposition that less than half that
number had been named.

The intimate friends of Jerome Herff
of Peru, the well-known Democratic
politician who ran twice for state
treasurer, were considerably amused
at a report unwittingly started by a
correspondent here that he will be a
delegate on the Hearst slate in the
Eleventh district to the national con-
vention. Herff is a candidate for dele-
gate, and it is said that he will be
elected, but he is an out-and-out Par-
ker man. He became a candidate be-
fore there was any talk of a fight be-
tween the Hearst and Parker forces,
but he has made no secret of his pre-
ferences and the fact that he was un-
intentionally mentioned as a Hearst man
has given his friends an opportunity
to make it very interesting for him.
It is said that B. F. Louthain of Lo-
gansport will be the other Parker dele-
gate in the Eleventh district.

COMMITTEE OF INQUIRY

Will Look Into the Red Cross Squab-
ble.

Washington, April 13.—The books
and accounts of the Red Cross society
will be taken to the United States cap-
itol on Thursday, where they will be
examined by a committee of inquiry
appointed to look into the affairs of the
society. The committee then will en-
gage an expert accountant to examine
the books and report to the committee.
Counsel for the remonstrants in the
Red Cross controversy have been asked
to submit a list of witnesses and
what they expect to prove by each.
With all this matter before the com-
mittee it will determine the course it
shall take in the effort to straighten
out the trouble in the society.

Negro Boy's Crime.

Kansas City, April 13.—Roy Martin,
aged seventeen years, a high school
boy of Kansas City, Kan., was shot
and killed last night by a negro boy
named Gregory. Martin with his
schoolmates was playing ball when
Gregory and other negro boys made in-
sulting remarks to the white boys.
The white boys resented this and Greg-
ory drew a revolver and fired into the
crowd of white boys, sending a bullet
through Martin's heart.

Indiana Grand Lodge A. O. U. W.
Fort Wayne, Ind., April 13.—The
21st biennial session of the grand
lodge of Indiana, Ancient Order of
United Workmen, is in session in this
city. Grand Master T. D. Neal of In-
dianapolis states that it is the most
thorough representation the lodge in
the state has ever had, very few lodges
being without delegates in attendance.

Mutilated in a Charivari.

Princeton, Ind., April 13.—At a char-
ivari Francisco Ireland, aged nineteen
years, had an arm blown off with a
stick of dynamite which he intended to
explode near a residence. The explo-
sive went off prematurely, resulting
in the accident. Ireland is a son of a
prominent physician.

Business Badly Behind.

Berlin, April 13.—The reichstag re-
sumed its settings yesterday, after the
Easter holidays, with business badly
behind, owing to the protracted gen-
eral political debate during the budget
discussion, which is still unfinished.

Child Killed by Falling Limb.

Rochdale, Ind., April 13.—Harry
Gleason, the four-year-old son of Mr.
and Mrs. Dee Gleason, was instantly
killed by the falling of a limb of a
tree.

Allentown, Pa., April 13.—The body
of Martin Leskowski, the murderer
who recently escaped from jail at
Mauch Chunk, was found on the Le-
high Valley railroad track above here.

ALL VOTED DOWN

Democratic Amendments to
Post Office Bill Were
Rejected.

MEASURE THEN PASSED

Sharp Colloquy Occurred in the Sen-
ate Between Mr. Teller and
Mr. Hopkins.

The Latter Uses Language Which
the Former Declares Is
Insulting.

Washington, April 13.—A sharp col-
loquy occurred in the senate between
Senators Teller and Hopkins, growing
out of the reading by Mr. Teller of a
letter written by the late General H.
H. Thomas of Chicago, attacking civil
service administration of the treasury
department. Mr. Hopkins took excep-
tion to the quoting of the letter and
declared that the Colorado senator
would be willing to accept "authority
from the slums," whereupon Mr. Tel-
ler declined to yield further, declar-
ing Mr. Hopkins' reference to the
slums to be insulting. The incident
occurred in connection with the dis-
cussion of the postoffice appropriation
bill. That measure was under discus-
sion during the first half of the ses-
sion and was passed, all amendments
offered by the Democrats being voted
down.

The bill providing a form of gov-
ernment for the Panama canal zone
was taken up, but debate on it had not
begun when the senate adjourned for
the day.

SAYS HE NEVER

G. Cleveland Denies That He Dined a
Negro.

Washington, April 13.—The race
question again was injected into the
proceedings of the house of representa-
tives when Mr. Scott of Kansas deliv-
ered a long address in which he re-
ferred to his previous statement that
it was current in Kansas that ex-Pres-
ident Cleveland had dined C. H. J. Tay-
lor, a Kansas negro politician. He
read several letters from Kansas citi-
zens that it had been Taylor's boast
that he had received such social at-
tention from Mr. Cleveland. He also
said that Mr. Cleveland, while governor
of New York, had signed a bill provid-
ing for mixed schools.

In a spirited reply Mr. Williams
(Miss.), the minority leader, defended
the attitude of the South toward the
negro and said that discussion of the
race question by the Republicans was
an old game by which when the Re-
publican party found itself confronted
with issues that threatened its supre-
macy it began to wave the bloody shirt.
At the instance of Mr. Bartlett of
Georgia, a letter from ex-President
Cleveland was read, denying that he
had ever dined a negro. Mr. Bartlett
also declared Judge Parker of New
York to be the man whom the Demo-
crats will nominate for president.

JOHN BULL ALERT

Nicaragua's Infringement of Treaty to
Be Looked Into.

Washington, April 13.—Friction, it is
learned, is again developing between
Great Britain and Nicaragua over the
Mosquito coast, which since the early
60's has been a matter of contention
between the London government and
the Central American republic. It is
said that the London authorities once
more will protest against any violation
of the Zeledon-Wike treaty of 1860 by
the terms of which her Britannic maj-
esty agreed to recognize the sovereign-
ty of the republic of Nicaragua over
the country hitherto occupied or claim-
ed by the Mosquito Indians, the British
protectorate over this territory ceased
and in return the Nicaraguan govern-
ment pledged itself to assign the Mos-
quito reservation to the Indians and
grant them certain rights of local au-
tonomy. While the negotiations for
a Nicaraguan canal were pending dur-
ing the last few years the British gov-
ernment was averse to pushing the
Mosquito question. With the ratifica-
tion of the Hay-Bunau-Varilla canal
treaty the London authorities believe
the time auspicious to settle the ques-
tion with Nicaragua.

The sole wish of the British govern-
ment, it is stated, is to bring to a re-
alization of the treaty obligation she
is under to deal with the Mosquito In-
dians with justice and give to them
those rights which Nicaragua prom-
ised they should at all times enjoy.

A Short-Lived Strike.

Chicago, April 13.—The strike at the
plant of Swift & Co., here, lasted but
ten minutes. Five hundred cattle
butchers walked out. Almost at the
moment, however, word came from a
meeting then in session between the
union officials and the employers that
a settlement had been reached, and
the men returned to work.

Put It Out of Business.

Chicago, April 13.—Linemen sent
out by the Chicago Telephone com-
pany destroyed a switchboard govern-
ing telephones which, it is alleged,
were used for gambling purposes. This
switchboard, according to the police,
was part of one of the biggest "clear-
ing houses" for race information ex-
isting in Chicago.

A MISTRIAL

Jury in the Neely Case Could Not Agree.

New York, April 13.—The jury has disagreed in the action brought by the United States against Charles F. W. Neely, former director of finance of the postoffices of Cuba, in which an attempt was made to officially fix the amount of Neely's alleged peculations between January and May, 1900.

Judge Lacombe, sitting in the U. S. circuit court, where the suit was tried, made several efforts to get the jury to agree but failed, and discharged them after being assured by the foreman and several of the jurymen that an agreement was impossible. The attorneys for the government contended that by documentary evidence they had shown that Neely's peculations during the three months mentioned amounted to about \$45,000. The attorney for Neely argued that the Cuban act of amnesty freed his client from all criminal and civil liabilities. Special Attorney General Jones said the government would retry the case at once.

SPANISH PREMIER STABBED

Anarchist at Barcelona Attempts Assassination.

Barcelona, April 13.—Premier Maura of Spain was attacked and wounded by a man armed with a dagger, while entering the grounds of the palace. His assailant was at once arrested. A semi-official report of the attack on Premier Maura was issued, according to which the assailant held concealed a kitchen knife, with which he stabbed the premier, but the force of the blow was broken and its direction diverted by the heavy lace on the minister's coat, resulting in only a slight scratch under the sixth rib. A doctor attached to King Alfonso's suite examined the premier and prescribed a few hours' rest. His majesty sent a messenger to inquire concerning the attack and as to the prime minister's condition.

Joaquin Miguel Artao, the assailant, was employed as a domestic. He is an anarchist and when arrested attempted suicide by dashing his head against the wall.

BATTLE IN COURT

The Northern Pacific Fight Is On at St. Paul.

St. Paul, April 13.—A great legal battle by corporation lawyers representing two of the wealthiest sets of corporate interests in the United States, is being waged in the United States district court here before Judges Sanborn, Vandevanter, Hook and Thayer. This action is based on a motion presented to the court by E. H. Harriman et al., for leave to file an intervening petition for the purpose of showing why the Northern Securities company's officials should not carry out a plan of distribution of the assets of the recently declared illegal Northern Securities company in a manner alleged to be inimical to the interests of Harriman and Pierce.

MISAPPREHENSION

Caused Unnecessary Publicity, Says the McCall Report.

Washington, April 13.—The report of the McCall committee, appointed to look into the report of the postoffice committee of the house in so far as related to the charge therein contained affecting members of the house contained one interesting conclusion.

"That part of the report involving members which related to leases contained more information than was asked for by the house committee on post-offices and postroads," says the Mc-

SAMUEL MCCALL.

[Chairman of house special committee.]

Call report. "What was called for was a list of the cases where leases had been cancelled and renewed at a higher rental on the recommendation of members. Instead of this a list was prepared under the direction of Fourth Assistant Postmaster General Bristow, purporting to give all cases where members of congress had made any recommendation with regard to the leasing of premises or allowances for rent, fuel and light in connection with postoffices."

Continuing, the report says: "Precisely how this came about is not clear. The chief inspector testified that he told the fourth assistant that he thought the inspectors were doing work not called for, but that Mr. Bristow replied that he had talked with Mr. Overstreet and knew just what he wanted, and he instructed Mr. Cochran to continue the work as it was being done."

"On the other hand Mr. Overstreet states that the only communication upon the subject he had with Mr. Bristow related to the leases from members. Apparently Mr. Bristow misunderstood Mr. Overstreet and applied what was said to all the leases involved. But no duty devolved upon the committee to use more than it desired nor to make the whole or any portion of it public."

The committee concludes that the impression made upon the minds of the members of Mr. Overstreet's committee by the publication in a newspaper of the fact that the report was in its possession, together with the inference that it contained things which were a serious reflection upon members, was the reason for its publication by the committee. "It thus came about," the report continues, "that the report was published containing the names of many members of congress which never should have been associated with the so-called charges set forth in the Hay resolution."

Court Not Ready to Act.

Ouray, Col., April 13.—Sheriff Corbett will make no attempt for the present to serve the warrants at Telluride on Adjutant General Sherman M. Bell and Captain B. Wells, adjudged guilty of contempt of court for disobeying the habeas corpus order of Judge Theron Stevens and refusing to bring President Moyer of the Western Federation of Miners into court. Judge Stevens has gone to Gunnison, where he will hold court for two weeks, and the sheriff will await his return here at the end of the Gunnison session before he takes any steps in the direction of serving his warrants.

Blocking a Murderer's Refuge.

Washington, April 13.—Mr. Leischman informs the department of state that in obedience to its instructions he has requested the imperial Ottoman government to exert every possible means to prevent an asylum being given to the murderer of Missionary Laboree in Turkey. Mr. Leischman also has conferred with some of his colleagues informally for the purpose of securing similar action on their part.

Charged With Wife Murder.

Benton Harbor, Mich., April 13.—Thomas Paine, aged seventy-five, a wealthy farmer eighteen miles south of here, is under arrest, charged with murdering his wife by shooting her in the heart. The murdered woman was thirty-eight years of age and was Payne's second wife.

STATE NEWS

Lafayette, Ind., April 13.—Professor Severance Burrage of Purdue university, has demonstrated that typhoid fever is carried by flies much in the same manner as malaria is carried by mosquitoes. The fly does not have the power of inoculating the victim with the typhoid fever, as does the long-billed mosquito, but Prof Burrage's experiments show that the typhoid fever germs are carried from one place to another by flies, and when carried to the proper conditions multiplication is speedy, making a formerly healthy place strongly polluted.

The fact was proved by Prof. Burrage by forcing a fly that had been in typhoid fever matter to walk half an hour later through the proper culture media. In every footprint of the fly after the germs had had time to develop, large colonies of typhoid fever organisms were found. Prof. Burrage has photographs of several culture plates showing this growth.

TO PLOW UP WHEAT LAND

Crops So Poor That Many Farmers Will Not Harvest It.

Indianapolis, April 13.—Much of the land that was planted in wheat last fall will be plowed up and planted in other crops on account of the failure of wheat this year. Reports from the township assessors that are coming to State Statistician Johnson show that from one-fourth to one-half the wheat acreage will be abandoned that the farmer may cover his losses in other grains. So poor is the wheat crop in some localities that the yields will not be more than 10 per cent of the normal.

Reports from 297 townships out of 1,015 townships, and 87 out of 92 counties, show that there is little hope for the wheat this year. Out of 65 counties, 153 townships show a condition indicating a harvest of 60 per cent of the normal. Seventy-seven townships out of 50 counties show a harvest of 70 per cent, and 47 townships out of 47 counties, a harvest of 80 per cent. Only eleven townships and eleven counties show the condition to be good.

Early Settlement Predicted.

Terre Haute, Ind., April 13.—The negotiations between the scale committees of the United Mine Workers and the mine operators of the state are now believed to be well along toward settlement and the announcement of an agreement is expected soon. The operators broke off all negotiations last week because the men refused to work pending the agreement. The miners' officers then urged the men to go back, and they did so, although reluctantly. Every mine in the state is now running and will continue at work until the committee makes announcement of the result of its deliberations.

Mail Clerk's Suicide.

Fort Wayne, Ind., April 13.—News has been received here of the suicide of William W. Cook, in Chicago. He is a Fort Wayne man, and was formerly employed as a mail clerk in this city, and later as a railway mail clerk, running between Chicago and Cleveland. Despondency, due to ill-health, is supposed to have been the cause. He shot himself twice in the breast, dying instantly.

In a Perilous Position.

Anderson, Ind., April 13.—While he was walking on railway tracks in North Anderson Ernest Gooding caught his foot in a switch frog and it was held so firmly that he could not extricate himself. Gooding heard a train approaching, and he was frantic from fright and pain when Joseph Morgan, a factory employe, came to his rescue and released him barely in time.

Climbed Fence With Gun.

Brazil, Ind., April 13.—David Skelton, a farmer of Cass township, was fatally injured by the accidental discharge of a shotgun in the hands of Ray Vaughn, another farmer, while hunting. While climbing over a fence the gun which Vaughn carried was discharged by the trigger catching on a wire, and the charge took effect in Skelton's back.

The Deadly Line Shaft.

Fort Wayne, Ind., April 13.—Felix Gladbach, an eighteen-year-old boy employed in the Berghoff brewery, was killed as the result of an accident. He fell upon a line shaft and was dragged into a wheel, which was turning at the rate of 180 revolutions a minute. Both of his legs were torn off and he died two hours later in the hospital.

Drunken Quarrel Ends Tragically. Madison, Ind., April 13.—George Tomlinson, near this city, was shot and killed by Granville Raiser in a drunken quarrel at Carrollton, Ky.

M. A. Talbott & Co., of Logansport, have been awarded a judgment of \$65,000 against New Castle for the construction of a ten-mile sewer. The case has been in court for more than a year. Suit was originally brought for \$120,000, after the city refused to allow the firm a bill for \$90,000. The verdict is quite a victory for the city.

Wilbur L. Freeman was transferred from the Greenfield postoffice to a clerkship in the Indianapolis post-office, where he had the highest grade on the eligible list. Mr. Freeman had been in the Greenfield postoffice about one year, going there from Liberty, where he was connected with the city schools for several years. Harry M. Bruner, foreman of the Greenfield Globe office, was appointed by the postmaster to fill the vacancy at Greenfield. Both young men are known here.

Ora Billings' Funeral.

The funeral of Ora Billings, the unfortunate young man, who died of lockjaw, Monday, was held today. A large crowd gathered to pay their last respects to a true and kind-hearted young man. Rev. W. W. Sniff preached the funeral sermon, and the several lodges to which the young man belonged, attended in a body and participated in the services. Interment at East Hill.

Let's Go a Fishin'.

Let us go into the woods and get away from the mass of humanity—from the desperate life drive; from the rush and crush of crowds; from the babel of tongues that only was to censure; from the blinding glare of the glittering Dollar, whose mimic Eagle's talons are at the throat of Life; from the false loves, false friends and the Terror of the Toil of Cities whose thunder clouds hide God. Let us take a day off with the thrush and the song-thrilled mocking bird, in dreamy depths of daisies, by rippled rivers and inviolate vines; let us dedicate one day to the freedom of the wild—one day of bright barbaric splendor, with echoes of "ancestral voices." In other words, let's go a-fishing!—Atlanta Constitution.

Governor of Porto Rico.

According to advices from Washington, W. T. Elliott, of New Castle, for whom Congressman Watson and other members of Congress from this State have been trying to secure an appointment as Governor of the island, stands but little chance of appointment.

The understanding is now that Governor Hunt will retire in August. The candidates for the place, in addition to Mr. Elliott, are Charles Hartzell, secretary of the island; General Willis Sweet, attorney general for the island, and Regis H. Post, the present auditor of the island.

While the President has not indicated his plans to Mr. Elliott's friends and backers, the impression is that he will send new blood to the island.

During the last year there has been a good deal of friction among the Federal office holders on the island, and the administration evidently feels that the promotion of any one of the present officials would not tend to bring about a better feeling.
